

ADOTEC Gear Custom Tarp design form

Name: _____ Date: _____

Email: _____ Phone: _____

I understand that all custom-made tarps are FINAL SALE and not eligible for returns, except due to manufacturing defects

I have read and understood the Warranty>Returns/Repairs Policy at: www.adotecgear.com/adotec-warranty

STEP 1: Choose material type

0.5oz Dyneema® Composite Fabric (WHITE)

1.0oz Dyneema® Composite Fabric (WHITE)

1.0oz Dyneema® Composite Fabric (GREY)

1.4oz Dyneema® Composite Fabric (GREEN)

* for description of material types see: www.adotecgear.com/dcf-information

STEP 2: Draw tarp outline on the template provided on next page. Straight line edges only (no curvy lines). Maximum size 13 x 13 ft. Smallest increment = ½ ft.

STEP 3a: Place tie out points on your tarp by drawing a small circle at the desired locations. Can be placed on corners, on the edge, or anywhere else within the tarp (separated by at least one foot). Each tie out point can have a line tensioner or a D-ring installed.

Indicate a Line tensioner with a closed circle ● Indicate D-ring with an open circle ○

For pictures and explanations, go to: www.adotecgear.com/custom-tarp-template-dwnld/ and click 'READ MORE' under 'design limitations and other notes'

(NOTE: line tensioners work with 2.0mm jacketed cord, which can be selected in *step 4*. If using other types for cord, opt for the D-ring option on all your anchors)

STEP 3b: Indicate direction of tension on mid-panel tie out points (i.e. which way will you be stretching the guyline from each point). Draw a small arrow in the direction of the guyline that will be running from a given tie out.

See example at: www.adotecgear.com/custom-tarp-template-dwnld/ and click 'READ MORE' under 'design limitations and other notes'

STEP 4a: Select quantity and length of guylines

I don't need any guylines, will be using my own

Just send me some bulk cord, I'll cut it myself to desired sections. Specify cord length: _____ ft.

Send me pre-cut guylines (with mini hook on one end):

Quantity_____ Length_____ft. | Quantity_____ Length_____ft. | Quantity_____ Length_____ft.

* check out what cord we use and how we make our guylines: www.adotecgear.com/cord

STEP 4b: Add lightweight titanium pegs and/or stakes

I don't need any, will use my own Pegs: Quantity_____ Stakes: Quantity_____

* more info on our titanium pegs and stakes: www.adotecgear.com/pegs-and-stakes

STEP 4c: Add Dyneema[®] storage bag (draw string stuff sack)

No thanks, I don't need a storage bag Yes! Include a storage bag

STEP 5: Add additional notes and requests below (otherwise leave blank)

BELOW: FOR USE BY ADOTEC DESIGN TEAM ONLY

Design template ID:

Customer name:

Email:

Phone:

Date:

YES. tarp design approved NO. please see notes below, edit design and re-submit

Price breakdown:

Price total: (customer pays this, before tax): _____ Canadian Dollars

Additional notes to customer from design team:
